Mr. Lindsey submitted the following report, and the following exhibits attached thereto, to-wit: A, B, C, D, E, F, G, H, I, J, K, L and M were filed with the Secretary:

Tallahassee, Fla., June 3, 1921.

Hon. W. A. MacWilliams,
President of the Senate.

Hon. Frank E. Jennings,
Speaker of the House of Representatives.

Sirs:

Pursuant to House Concurrent Resolution No. 3, providing that a committee of three from the House and two from the Senate be appointed to inquire into examine and investigate the conduct, receipts, expenditures and complete transactions of the Shell Fish Department from time of its creation in 1913, we beg to report as follows:

The committee examined under oath at Tallahassee, the following witnesses:

W. E. Sinclair, Safety Harbor, Florida, a renter of property to fishermen.

N. Raulerson, Tampa, Florida, a ship carpenter formerly in the employ of the Shell Fish Department.

J. A. Williams, Gainesville, Florida, a former Shell Fish Commissioner, serving from July 19, 1917, to April 15, 1921.

W. A. McRae, Commissioner of Agriculture.

T. R. Hodges, former Shell Fish Commissioner, serving from July 18, 1913, to July, 1917, and who is the present Shell Fish Commissioner, having been re-appointed to that office April 16, 1921.

A copy of the testimony taken is submitted herewith to be filed as Exhibit "A."

We find this testimony conflicting and it is impossible for us to arrive at a definite conclusion. We do, however, find to the best of our belief, that the law has been too broadly construed and in our opinion the operation of the law has not upon the whole benefited the oyster, clam or shrimp industries. Mr. Moore, a reputable dealer of Franklin County, stated to the committee that prior to the creation of the Shell Fish Department, the oyster dealers of his section were voluntarily re-planting oyster shells, but said that such replanting was practically abandoned when the Shell Fish Department was created, because under this law the dealers pay a tax which is supposed to be used for oyster planting, and according to his statement the department has done practically no planting, and their failure to do so caused the dealers to be somewhat resentful, and as a result nothing is being done to replenish those beds.

Accompanying statement from the Commissioner of Agriculture indicates that since 1913 there has been issued a total of two hundred and seventy oyster leases covering an aggregate of 8,486 acres, and that all of these leases have become delinquent through non-payment of dues, except sixty-six leases, covering 2,036 acres. The committee considers that the lessees would have continued their payments much better were it not for the fact that under the law a delinquent lease cannot be recovered by the State except upon a published notice continued for some time and such notice being attended by considerable expense to the department. In the meantime, the lessees have continued to use the oyster beds as though their payments were being made.

We are led to believe that the Shell Fish Commissioner has been of little benefit to the salt water fish industry. Most of the reports indicate that the supply of salt water fish and shell fish is decreasing. Violations of the law have been general. Some arrests have been made, but comparatively few convictions have been obtained. From testimony furnished, we believe that there has been practically no co-operation between the Shell Fish Commissioner and the various county officials.

We file herewith a condensed statement from the State Treasurer's report showing the aggregate of receipts and disbursements for each year since creation of the depart-

ment in 1913 to December 31, 1920. For the entire period the department seems to have sustained a net loss of \$25,707.79 less the present value of the property now on hand. Commissioner Hodges says that he is unable to furnish a definite inventory of this property, but from the information available the committee estimates that the value of it would not exceed \$10,000, which would mean that the State has sustained a loss of about \$15,000 through the Shell Fish Department.

In our opinion, the department has been somewhat extravagant in the purchase and use of boats not adapted to the purposes for which they were intended.

We have had access to the paid vouchers in the Comptroller's office as issued by the Shell Fish Commissioner. We examined into these vouchers as far as it was possible to do so on account of the limited time in which to make such examination, and we find that in the early administration of the office of Shell Fish Commissioner that practically all bills carried the approval of the Commissioner of Agriculture, but it seems that in the past few years that this policy has not been adhered to, as we find numerous bills for large amounts which do not carry the approval of the Commissioner of Agriculture.

In the examination of vouchers we find that for several months during 1915 or 1916 Commissioner Hodges bought for the boat "Seafoam" considerable amount of groceries and boat supplies each month from his brothers, W. R. Hodges and J. C. Hodges, of Cedar Keyes. Regarding these purchases, J. D. Richardson, of Cedar Keyes, an employee of the boat "Seafoam" testified as follows:

Q. How many general stores are there in Cedar Key?

A. Three.

Q. Are there any other smaller stores?

A. Some four or five, may be a few more.

Q. What instructions did Commissioner Hodges give you as to the purchase of supplies in Cedar Key?

A. He instructed me to get supplies from Hodges Brothers.

Q. Were you authorized to buy from any store in Cedar Key other than the store of the Hodges Brothers?

A. No.

Q. Who composed the firm of Hodges Brothers?

A. W. R. Hodges and J. C. Hodges.

Q. Are they brothers to the Shell Fish Commissioner Hodges?

A. That is my understanding.

Q. From what oil company were you instructed to get supplies in Cedar Key?

A. The Gulf Refining Company.

Q. Who was the local manager for that company there?

A. W. R. Hodges.

Q. Did Commissioner Hodges instruct you from whom you should buy supplies in other towns?

A. Yes.

Q. Were you instructed to patronize the Gulf Refining Company in preference to other oil companies?

A. I was instructed to get supplies from the Gulf Refining Company.

Q. Did the Gulf Refining Company sell supplies cheaper than other oil companies?

A. Not to my knowledge.

In the statements rendered against the State by Hodges Brothers, of Cedar Keys there appeared two charges for wharfage of the Boat Sea Foam, and all evidence obtainable by the committee shows that it was not customary to charge wharfage against boats at that place.

We were directed by the resolution to obtain "a statement of all property purchased by the Shell Fish Department, together with the cost of each item." This we have been unable to do. The resolution also requires "an itemized list of all property owned by the Shell Fish Department at the time, together with the value thereof." A copy of a report made by Shell Fish Commissioner Hodges containing a list of such property as was turned over to him on April 16, 1921, by Shell Fish Commissioner Williams, also an itemized list of all property owned by the department in the City of Tallahassee, being office equipment, etc., neither of which lists bears any information as to the value of said property, is submitted herewith to be filed.

Upon the whole the committee considers that the cost of the operation of the Shell Fish Department has been entirely too much in proportion to the receipts and to the benefits derived.

The committee recommends that the Commissioner of Agriculture keep in closer touch with the Shell Fish Department and that the Comptroller do not issue warrants

covering any vouchers which are not approved by the Commissioner of Agriculture.

The law should be so amended that when a lessee of oyster bottoms shall fail to pay the regular installments, then such leases should become entirely void and the bottoms automatically revert to the State, and it should be unlawful to use any seine or net with a smaller mesh than one and three-quarter inches from knot to knot.

We believe that the receipts to the department would be much higher and that better results would be had if the license on boats was reduced to a low figure and a nominal tax imposed on all fish which are marketed or caught for market within the State.

If the law was changed as suggested, and oyster planting was properly conducted, and an efficient warden service installed, we believe that the department would show fair returns, but the results so far are very discouraging. We file herewith some supplemental papers, and we sincerely regret our inability to obtain more specific information and to render this report at an earlier date.

Respectfully submitted,

B. H. LINDSEY,

F. H. LADD,

S. J. GUNN,

F. D. UPCHURCH.
